**Document is “a piece of written, printed, or electronic matter that provides information /evidence which serves as an official record.”**

# Document Control Record Management

DCRM is part of integrated process of File Management for the smooth execution of Institution.

Document is “a piece of written, printed, or electronic matter that provides information /evidence which serves as an official record.”

**This process comprises of the following Elements:**

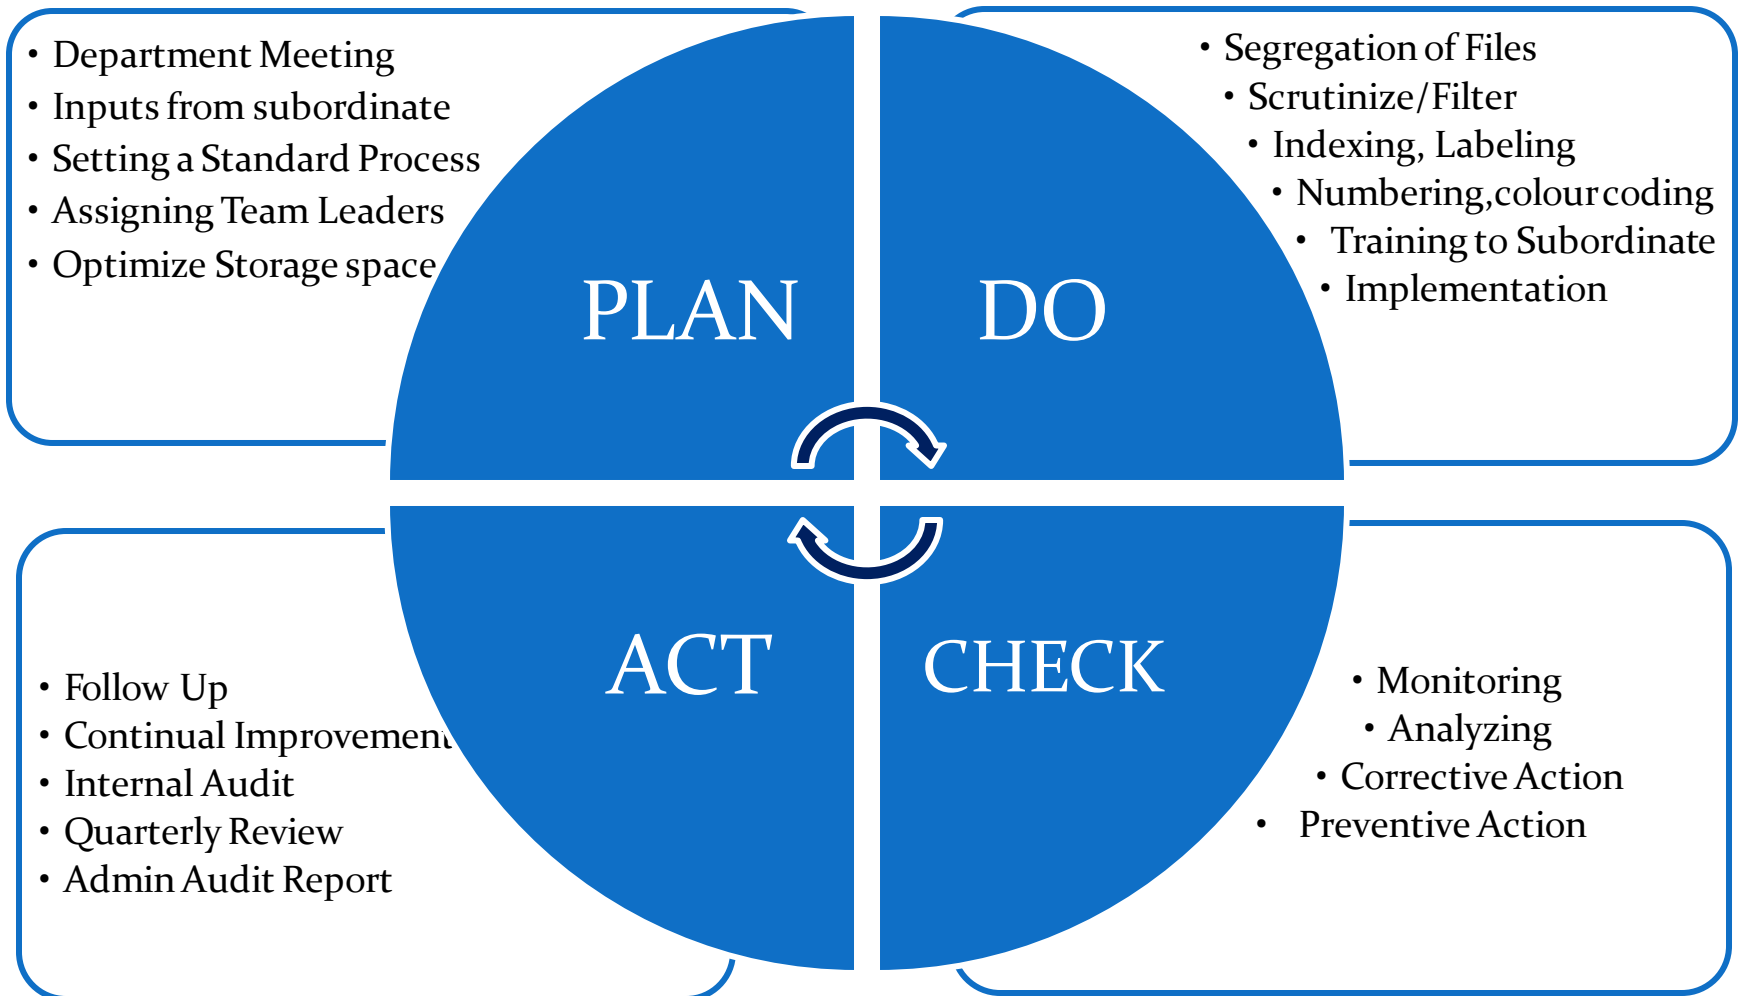

- Receive** : Received information should be Identified, Classified, Numbered and Indexed
- Store** : Storing considers the identification of storage location
- Retrieve** : Retrieval is accessing the information stored as and when required
- Distribute** : Controlled documents are distributed in accordance with prepared lists
- Destroy** : Information will be destroyed as per the Government stipulated time period in accordance with approval process

# Difference between Document and Record

Document	Record
<ul style="list-style-type: none"><li>• Documents are created by Planning (what needs to be done) e.g. Policy, Standard Operating Procedure, Manual etc.</li></ul>	<ul style="list-style-type: none"><li>• Records are created when something is done e.g. Minutes of the Meeting , Audit Reports, General Register, etc.</li></ul>
<ul style="list-style-type: none"><li>• Documents need to be reviewed, approved, legible, up-to-date, communicated and readily available</li></ul>	<ul style="list-style-type: none"><li>• Records need to be identifiable (labeled) Stored, Protected, Retrievable and disposed of as per Government norms with stipulated period</li></ul>
<ul style="list-style-type: none"><li>• Documents can be revised as and when required</li></ul>	<ul style="list-style-type: none"><li>• Records cannot be amend</li></ul>

# Execution of DCRM as per Quality Management System

# The Effectiveness of the Plan-Do-Check-Act

- Plan-Do-Check-Act cycle is a popular management method to achieve continuous improvement in an organization.
- This method is widely implemented as a part of a tool for quality management system and strategic planning.
- This will certainly lead to a reduction in waste and increase productivity in the long run.
- It helps a process to improve its performance in a smooth manner.
